EDUCATIONAL INSTITUTION ERP

eduerp.viewiss.com
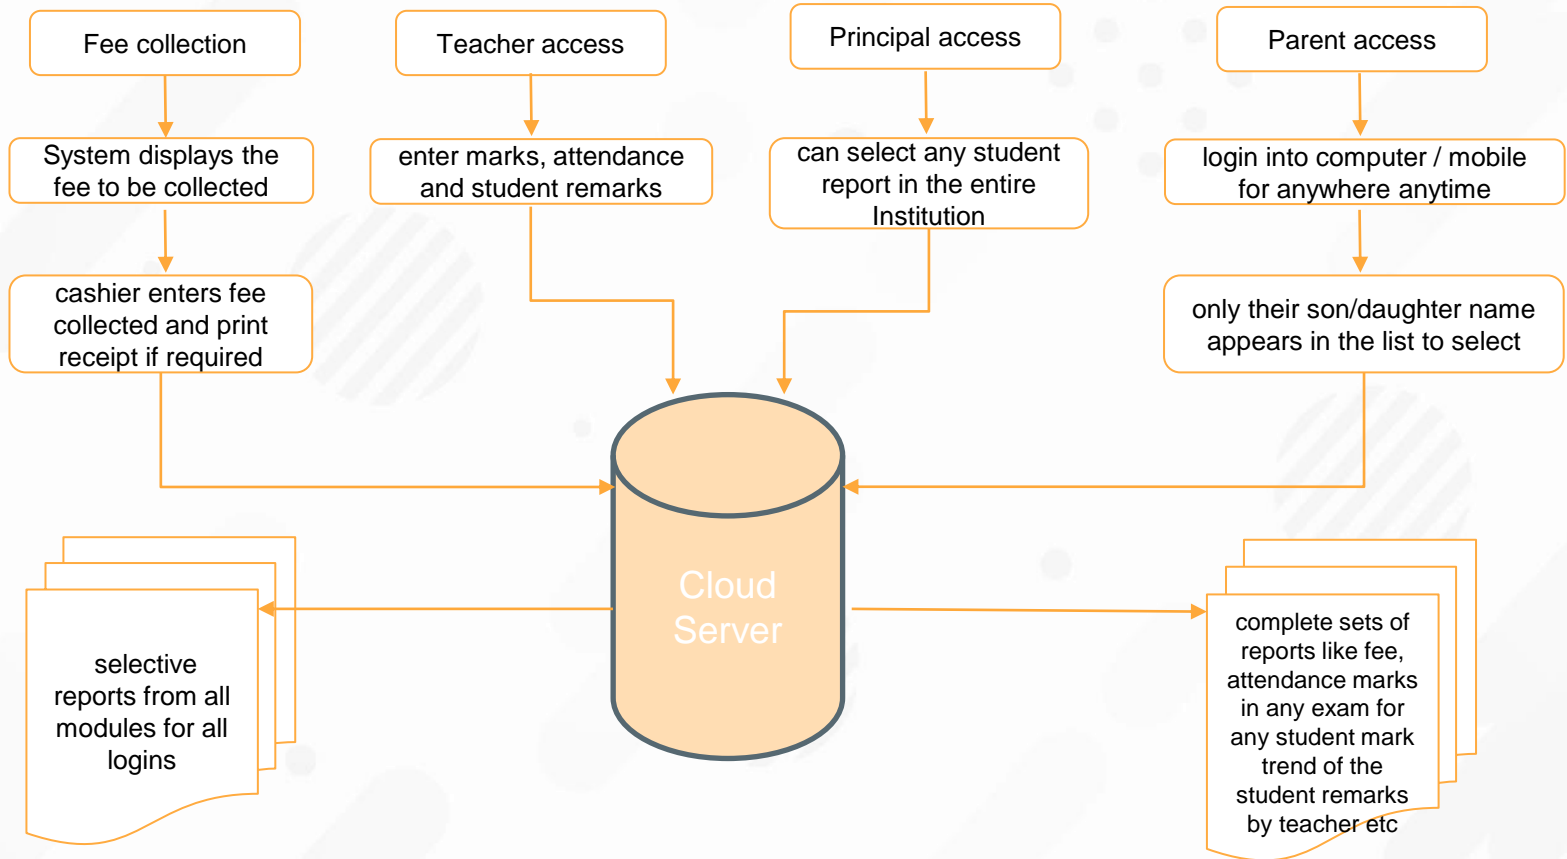

INNOVATIVE SOFT SOLUTIONS

Features

✓ Every Staff in the institution will have their own login & Password

✓ Highly secured with **user based restriction** to access information that can be set or altered anytime by the system administrator.

✓ You can access the data from **anywhere anytime** and from any system since it is the cloud based. Even you can access in your mobile

✓ No need of any IT infrastructure at your end. So no investment and **running cost to you**.

✓ Live reports in your screen / parent screen of **mobile / computer** all the time - 24 hours a day across the year

✓ Teachers need to enter only marks of an exam. That's all! The software does the rest of the work like grading the students, Pass/Fail, calculating the class average, calculating the class highest (to know the status of each student). Software also generate **rank card /progress report** for every student which can be made available to parent also to view through their login

✓ Powerful analytical report for better management and all the report can be downloaded to your computer in **Excel format or pdf format or print** it directly in your printer connected to the system

Flow chart

Fee collection → System displays the fee to be collected → cashier enters fee collected and print receipt if required

Teacher access → enter marks, attendance and student remarks

Principal access → can select any student report in the entire Institution

Parent access → login into computer / mobile for anywhere anytime → only their son/daughter name appears in the list to select

Cloud Server

selective reports from all modules for all logins

complete sets of reports like fee, attendance marks in any exam for any student mark trend of the student remarks by teacher etc

Login screen

Address to enter in to our online demo

You can open this site , operate and see all reports

Being demo, login and password are prefilled

Dashboard

You can click this dots to expand its menu and can select anything. The particular graph will behave accordingly

Data entry screen (attendance entry sample)
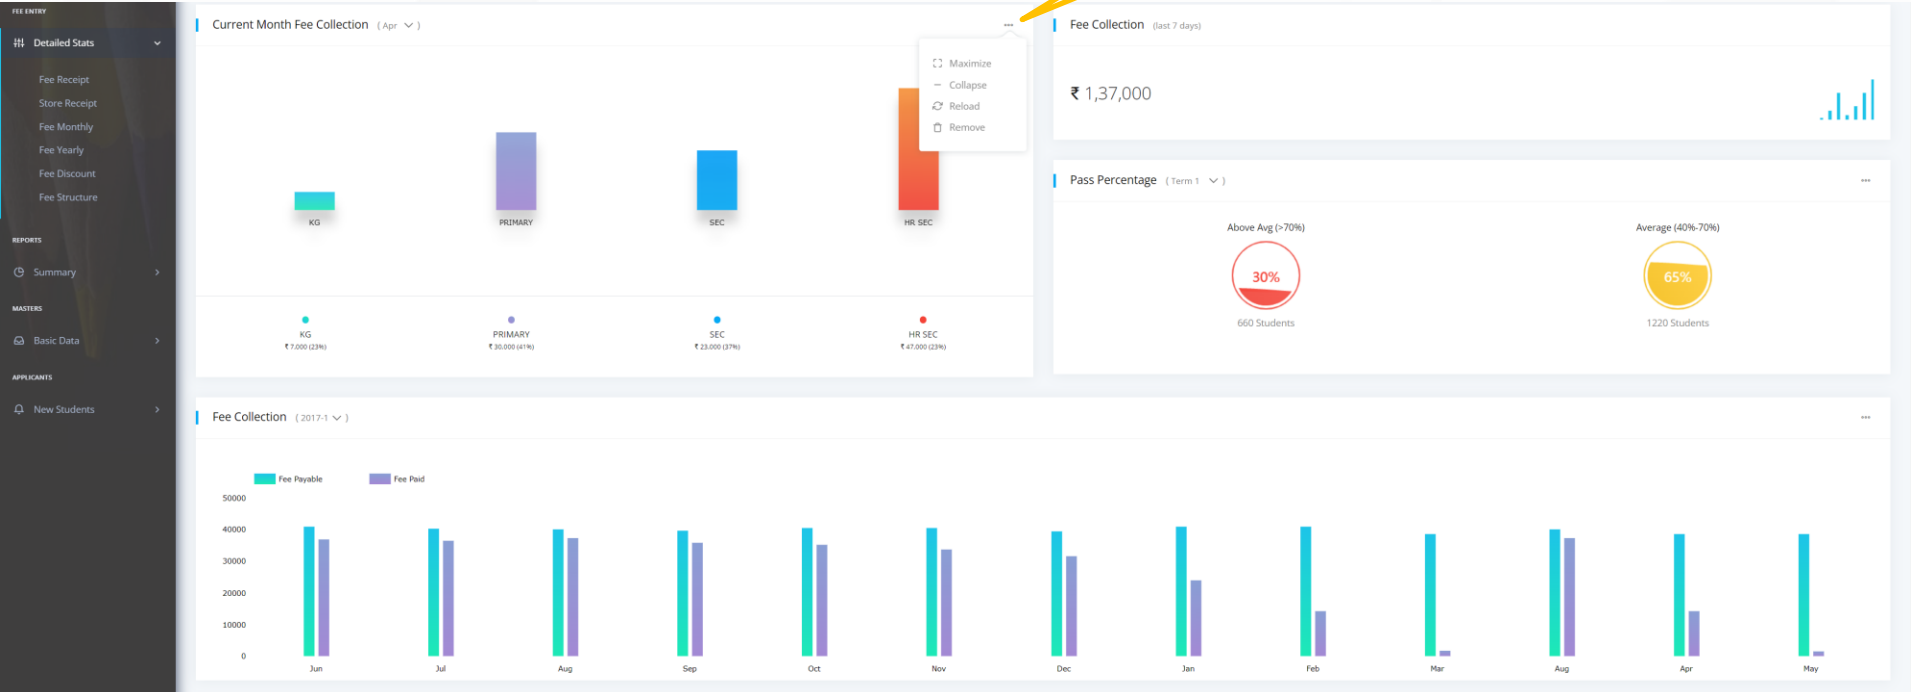

Features available in our data entry screens

By clicking this X button the menu will be hidden leaving more space for data screen. It is option to user

After filling all data, just press update button once to save all data in single stroke. It is easy and saves a lot of time!

Data entry panel allows you to select any combination and by pressing find button, the pre-filled data entry form appears to enter data . In this case only 'absents days' need to be entered.

days worked column is automatically calculated by software based on absent days and filled. Similarly username and time stamp is automatically entered by system. No one can change them. Hence you will know who has entered data and at what time. Many columns are prefilled. Hence less human work and error!

Reports (sample report screen – students details)

you can select anything in this list. Similar lists are available for all dropdowns. Hence this screen can generate 100s of report with different columns and data

You can click this symbol in any of the column to sort the report on that column.

with in a report, you can filter data further only one student

Menu is minimised by you in this case. Anytime you can expand it by moving curser anywhere in this part

you can directly print the report. Or you can down load it to your system as pdf or excel file!

You can click any of the page to go to that page

you can change the number of rows to appear in every page

Options available to users

✓ This software will work both on webserver and local computer.

✓ If you need it to install in your local system, we will do it right from office thru any desk.

1. Any computer with windows 10 operating system is sufficient to install this software and that system will work as server. No need of any special server machine.
2. You can operate this software from any computer connected with LAN.
3. If you have Wi-Fi in your office, then you can access the software even in your mobile.

✓ We can install and maintain this software for you in our cloud server also.

✓ We can customize this software for generating different reports as per your need at extra one time cost.

✓ This software can be bought on time purchase or can be on annual lease.

Benefits of our Cloud Server option

If you go for our cloud server AMC option, you are having the following benefits.

- ✓ No investment for you on server computer, its repair, maintenance and replacement.

- ✓ No need to invest for software for every site and can use the same software for all sites.

- ✓ No need to invest on power back-up like UPS.

- ✓ No need of daily backup of database.

- ✓ No need of employing any hardware / software computer engineer

- ✓ No AMC needed for your server as you don't need one.

- ✓ You can access data from your Computer/Mobile all **24HRS 365DAYS** of the year from your home or from anywhere across the world which is not possible if you go for your own office server.

- ✓ If you are going for more than one site and HO in different location, it is better to go for our / your own cloud server to reduce the cost and higher utilization and access.

Leave many of your headache to us like investment on server, employing engineer to operate, AMC etc!!
